

INDV 101 Language (1-10)
Hammond
Spring '01

Assignment #10 for Honors Section

Due: **April 13** at the *beginning* of class.

The theory of language that we have been working with so far suggests that a first language is learned differently from other skills, e.g. riding a bicycle, playing chess, writing poetry, etc. Explain why this is so and explain what the predicted differences are. Do you expect the same differences for the acquisition of a second language by adults? Why or why not?

Requirements:

1. This can be no longer than TWO pages.
2. This must be typed.
3. This must be double-spaced.
4. The font size and margins must be reasonable!
5. Put your name and section number on your assignment.

Things to keep in mind:

1. Be clear, not deep!
